

Historical Drawings and Photos of the Gladstone Shops

Southwest Corner of Frost and English,
Maplewood, MN

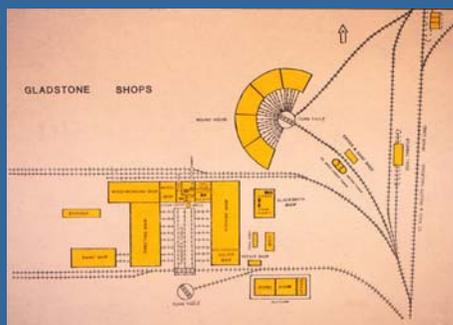

This set of images was provided by Bill Schwietz. Bill took many of these photos just before the buildings were torn down in the late 1970's. Some of the photos were taken by others. We're trying to get proper credits for each image. Bill's photos were taken as slides and Bob Jensen then transferred them to digital format and used Photoshop to enhance the image.
